TOPICS

- We Grow Soil
- It's All About the Water
- Livin' On the Edge
- What Bugs Me

FROM THE GROUND UP.

In the morning we will take a deep dive underground and see what it takes to grow soil and how to rebuild the water cycle. The afternoon will focus about ground, looking at building ecosystems and managing for biodiversity on the farm.

If you want less pharmacology, we need more farm ecology! ~ Steve Kenyon

ALL WORKSHOPS
FREE REGISTRATION
Please RSVP for lunch headcount
