Kiowa, KS 67070

TOPICS

We Grow Soil
It's All About the Water
Livin' On the Edge
What Bugs Me

From the Ground Up.

In the morning, we will take a deep dive under ground and see what it takes to grow soil and how to rebuild the water cycle. The afternoon will focus above ground, looking at building ecosystems and managing for biodiversity on the farm.

If you want less pharmacology, we need more farm ecology!

-Steve Kenyon
